Derived From: Magnesium Sulfate, Manganese Citrate, Zinc Citrate, Iron Citrate, Sodium Borate, and Sodium Molybdate.

NON-PLANT FOOD INGREDIENTS

| | |
|--------------------|-------|
| Humic Acid..... | 0.10% |
| Yeast Extract..... | 0.06% |

Purpose: To enhance nutrient uptake.
F528

INFORMATION

KeyPlex 350 PTL is a formulation of micronutrients most often found deficient in turfgrass, shrubs and trees. It contains alpha-keto acids, which may facilitate utilization of micronutrients, and increase resistance to environmental stress. It also contains humic acid, which may enhance soil micronutrient availability. KeyPlex 350 PTL

is formulated for foliar application or fertigation to prevent and correct micronutrient deficiencies when used as directed.

COMPATIBILITY

KeyPlex 350 PTL, when added to the spray tank water, will lower the water pH, and can be used in combination with pesticides. However, in unfamiliar mixtures use a "jar compatibility" test.

DIRECTIONS FOR USE

FOLIAR APPLICATION: Sports Turf: Apply as a spray, 1-2 quarts of KeyPlex PTL per acre or 1-2 fl.oz./1000 sq.ft. Applications are recommended every 21-45 days. **Golf Turf: Greens & Tees** apply as a spray, 1 to 1-1/2 fl.oz. of KeyPlex PTL in 1 to 2-1/2 gallons of water per 1,000 square feet of surface area. Applications are recommended every 7 to 14 days. **Fairways** apply as a spray, 1-2 quarts of KeyPlex PTL in 40 to 100 gallons of water per acre. Applications are recommended every 21-45 days. **Other Turfgrasses:** See Sports Turf applications. **Ornamentals and Flowering Plants:** Use 1-2 quarts of KeyPlex PTL per acre or 1 quart/100 gallons of water. Applications are recommended every 7-21 days as needed. **Note:** Foliar assimilation of KeyPlex PTL is enhanced by the addition of spray grade urea as a tank mix at the rate of 3 to 5 pounds per acre or 1 to 1-1/2 fl.oz. per 1000 sq.ft.

CONDITIONS OF SALE

Seller warrants that the product conforms to its chemical description and is reasonably fit for the purpose stated on the label when used in accordance with directions under normal conditions of use, but neither this warranty nor any other warranty of merchantability of fitness of a particular product expressed or implied extends to the use of this product contrary to label instructions or under abnormal conditions not reasonably foreseeable by the seller, and buyer assumes the risk of any such use.

CAUTION

KEEP OUT OF THE REACH OF CHILDREN

ANTIDOTE

Ingestion: Do not induce vomiting. **Eyes:** Rinse with copious quantities of water for at least 5 minutes. **Skin:** Wash with soap and water. Remove contaminate clothing. **Inhalation:** Remove patient from contaminated area. In all cases, patient seeing a physician should follow emergency procedures.
