

KeyPlex[®] 250

**Chelated Micronutrients,
Alpha-Keto Acids,
and Humic Acid**

GUARANTEED ANALYSIS

Total Magnesium (Mg)	2.50%
2.50% Water Soluble Magnesium (Mg)	
Combined Sulfur (S)	4.00%
Boron (B)	0.02%
Iron (Fe)	2.00%
2.00% Chelated Iron (Fe)	
Manganese (Mn)	1.14%
1.14% Chelated Manganese (Mn)	
Molybdenum (Mo)	0.003%
Zinc (Zn)	1.00%
1.00% Chelated Zinc (Zn)	

Derived From: Magnesium Sulfate, Manganese Glucoheptonate, Zinc Glucoheptonate, Iron Glucoheptonate, Sodium Borate, and Sodium Molybdate.

NON-PLANT FOOD INGREDIENTS

0.10%	Humic Acid (from Humalite)
0.06%	Yeast Extract (from Brewers Yeast)

Purpose: To enhance nutrient uptake.
F528

Information regarding the contents and levels of metals in this product is available on the Internet at: <http://www.aapfco.org/metals.htm>

INFORMATION

KeyPlex 250 is a formulation of micronutrients most often found deficient in commercial crops and trees. It contains alpha-keto acids, which may facilitate utilization of micronutrients, and increase resistance to environmental stress. It also

contains humic acid, which may enhance soil micronutrient availability. KeyPlex 250 is formulated for foliar application or fertigation to prevent and correct micronutrient deficiencies when used as directed. Maintaining proper levels of micronutrients usually results in increased plant vigor, better yields, superior fruit size and quality, and longer shelf life.

COMPATIBILITY

KeyPlex 250, when added to the spray tank water, will lower the water pH, and can be used in combination with pesticides. However, in unfamiliar mixtures use a "jar compatibility" test.

DIRECTIONS FOR USE FOLIAR

APPLICATION: Use 1 to 2 quarts of KeyPlex 250 per acre in a minimum of 20 gallons of water with ground spray equipment. At least six applications are recommended on most crops per crop or per season. At least three applications are recommended on agronomic crops. Adding 3 to 5 pounds of urea or potassium nitrate per 100 gallons of water will aid leaf assimilation. Use 2 to 3 quarts of KeyPlex 250 per acre per application. Adding 3 to 5 pounds of urea or potassium nitrate will aid leaf assimilation. Use 1 quart of KeyPlex 250 per 100 gallons of water. Adding 1 to 2 pounds of urea or potassium nitrate per 100 gallons of water will aid leaf assimilation. **AERIAL APPLICATION:** Use 1 to 2 quarts of KeyPlex 250 per acre in at least 15 gallons of water per acre. **FERTIGATION:** Apply 1 to 2 quarts of KeyPlex 250 per acre via low volume irrigation.

CONDITIONS OF SALE

Seller warrants that the product conforms to its chemical description and is reasonably fit for the purpose stated on the label when used in accordance with directions under normal conditions of use, but neither this warranty nor any other warranty of merchantability of fitness of a particular product expressed or implied extends to the use of this product contrary to label instructions or under abnormal conditions not reasonably foreseeable by the seller, and buyer assumes the risk of any such use.

CAUTION

KEEP OUT OF THE REACH OF CHILDREN

ANTIDOTE

Ingestion: Do not induce vomiting. **Eyes:** Rinse with copious quantities of water for at least 5 minutes. **Skin:** Wash with soap and water. Remove contaminated clothing. **Inhalation:** Remove patient from contaminated area. In all cases, patient seeing a physician should follow emergency procedures.

CAUTION

The application of fertilizing materials containing molybdenum (Mo) may result in forage crops containing levels of molybdenum (Mo) which are toxic to ruminant animals. This product contains Boron. The use of KeyPlex 250 on any crops other than those recommended may result in serious injury to the crops(s)
