1.00% Chelated Zinc (Zn)	

Derived From: Magnesium Sulfate, Manganese Glucoheptonate, Zinc Glucoheptonate, Iron Glucoheptonate, Sodium Borate, and Sodium Molybdate.

SOIL AMENDING INGREDIENTS

Humic Acid.....	0.10%
Fulvic Acid.....	0.10%
Yeast Extract.....	0.06%
Totals Other Ingredients.....	99.74%

WARNING

This product contains Boron. The use of KeyPlex 1200 DP on any crops other than those recommended may result in serious injury to the crop(s).

INFORMATION

KeyPlex 1200 DP is a formulation of micronutrients most often found deficient in commercial crops and trees. KeyPlex 1200 DP is formulated for foliar application to prevent and correct micronutrient

deficiencies when used as directed. Maintaining proper levels of micronutrients usually results in increased plant vigor, better yields, superior fruit size and quality, and longer shelf life.

COMPATIBILITY

KeyPlex 1200 DP, when added to the spray tank water, will lower the water pH, and can be used in combination with pesticides. However, in unfamiliar mixtures use a "jar compatibility" test.

DIRECTIONS FOR USE

FOLIAR APPLICATION: *Tomatoes and other vegetables, grapes, small fruits, and turf:* Use 1 to 2 quarts of KeyPlex 1200 DP per acre in a minimum of 20 gallons of water with ground spray equipment. At least six applications are recommended on most crops per crop or per season. Addition of 3 to 5 pounds of urea or potassium nitrate per 100 gallons of water will aid leaf assimilation. *Citrus Trees:* Use 3 quarts of KeyPlex 1200 DP per acre per application every six weeks during the growing season. During periods of heavy rainfall, apply every thirty days. Addition of 3 to 5 pounds of urea or potassium nitrate per 100 gallons of water will aid leaf assimilation. *Tropical fruits, peaches and other deciduous tree fruits, pecans and other nuts:* Use 2 to 3 quarts of KeyPlex 1200 DP per acre per application. Recommended minimum application 2 gallons per acre per year. Addition of 3 to 5 pounds of urea or potassium nitrate per 100 gallons of water will aid leaf assimilation. **AERIAL APPLICATION:** Use applicable rate (see above) of KeyPlex 1200 DP per acre in at least 15 gallons of water per acre.

CONDITIONS OF SALE

Seller warrants that the product conforms to its chemical description and is reasonably fit for the purpose stated on the label when used in accordance with directions under normal conditions of use, but neither this warranty nor any other warranty of merchantability of fitness of a particular product expressed or implied extends to the use of this product contrary to label instructions or under abnormal conditions not reasonably foreseeable by the seller, and buyer assumes the risk of any such use.

CAUTION

KEEP OUT OF THE REACH OF CHILDREN

ANTIDOTE

Ingestion: Do not induce vomiting. **Eyes:** Rinse with copious quantities of water for at least 5 minutes. **Skin:** Wash with soap and water. Remove contaminated clothing. **Inhalation:** Remove patient from contaminated area. In all cases, patient seeing a physician should follow emergency procedures.
