

# KeyPlex<sup>®</sup> 1400 DP

**4-0-0**  
**Chelated Micronutrients,  
Enhanced Alpha-Keto Acids,  
and Humic Acid**

## GUARANTEED ANALYSIS

|                               |       |
|-------------------------------|-------|
| Total Nitrogen (N).....       | 4.00% |
| 4.00% Nitrate Nitrogen (N)    |       |
| Iron (Fe).....                | 0.50% |
| 0.15% Soluble Iron (Fe)       |       |
| 0.35% Chelated Iron (Fe)      |       |
| Manganese (Mn).....           | 4.00% |
| 4.00% Chelated Manganese (Mn) |       |
| Zinc (Zn).....                | 4.00% |
| 4.00% Chelated Zinc (Zn)      |       |

**Derived From:** Iron Nitrate, Manganese Glucoheptonate, Zinc Glucoheptonate, and Iron Glucoheptonate.

## NON-PLANT FOOD INGREDIENTS

|                    |       |
|--------------------|-------|
| Humic Acid.....    | 0.10% |
| Fulvic Acid.....   | 0.10% |
| Yeast Extract..... | 0.06% |

**Purpose:** To enhance nutrient uptake.  
F528

## FOR USE ON THE FOLLOWING CROPS

Citrus, tropical fruits, stone fruits, pome fruits, nuts and corn.

## INFORMATION

KeyPlex 1400 DP is a formulation of micronutrients most often found deficient in citrus trees, other fruit trees, nut trees and corn. It contains alpha-keto acids, which may facilitate utilization of micronutrients, and increase resistance to environmental stress. It also contains humic acid, which may enhance soil micronutrient availability. KeyPlex 1400 DP

is formulated for foliar application to prevent and correct micronutrient deficiencies when used as directed. Maintaining proper levels of micronutrients usually results in increased plant vigor, better yields, superior fruit size and quality, and longer shelf life.

## COMPATIBILITY

KeyPlex 1400 DP, when added to the spray tank water, will lower the water pH, and can be used in combination with pesticides. However, in unfamiliar mixtures use a "jar compatibility" test.

## DIRECTIONS FOR USE

**FOLIAR APPLICATION:** *Citrus Trees:* Use 3 quarts of KeyPlex 1400 DP per acre per application every six weeks during the growing season. During periods of heavy rainfall, apply every thirty days. Addition of 3 to 5 pounds of urea or potassium nitrate per 100 gallons of water will aid leaf assimilation. *Other Fruit Trees:* Use 2 to 3 quarts of KeyPlex 1400 DP per acre per application in a minimum of 50 gallons of water with ground spray equipment. Recommended minimum application 2 gallons per acre per year. Addition of 3 to 5 pounds of urea or potassium nitrate per 100 gallons of water will aid leaf assimilation. *Corn:* Use 1 to 2 quarts of KeyPlex 1400 DP per acre in a minimum of 50 gallons of water with ground spray equipment. Addition of 3 to 5 pounds of urea or potassium nitrate per 100 gallons of water will aid leaf assimilation. **AERIAL APPLICATION:** Use applicable rate (see above) of KeyPlex 1400 DP per acre in at least 15 gallons of water per acre.

## CONDITIONS OF SALE

Seller warrants that the product conforms to its chemical description and is reasonably fit for the purpose stated on the label when used in accordance with directions under normal conditions of use, but neither this warranty nor any other warranty of merchantability of fitness of a particular product expressed or implied extends to the use of this product contrary to label instructions or under abnormal conditions not reasonably foreseeable by the seller, and buyer assumes the risk of any such use.

# CAUTION

KEEP OUT OF THE REACH OF CHILDREN

## ANTIDOTE

**Ingestion:** Do not induce vomiting. **Eyes:** Rinse with copious quantities of water for at least 5 minutes. **Skin:** Wash with soap and water. Remove contaminate clothing. **Inhalation:** Remove patient from contaminated area. In all cases, patient seeing a physician should follow emergency procedures.
